STANDARD FLUORESCENT LIGHT FIXTURE QUANTITY		CANS AND NON STANDARD FLUORESCENT FIXTURE			
2'x4'	2'x2'	Required Inside Cover Dimensions			Quantity
		L"	W"	H"	N.A.

Important Quote Request / Order Information:

- When ordering can light or non standard fluorescent covers, provide accurate fixture external / cover internal dimensions. Include any specific manufacturer required air space clearance for non IC rated lights to ensure correct SafeLite sizing.
- All covers are produced as 5 sided unless specified otherwise.
- Typical lead time 7-10 days ARO.
- It is the user / installer's responsibility to review the specific U.L. design(s) and prepare any cover vent openings.
