

From the most remote of locations to our own backyard, SPI supports all types of construction projects. As one of the largest distributors and fabricators of mechanical insulation in the world, SPI delivers high-quality, industry-leading products and services that represent the best value to our customers.

We bring our innovation and expertise to a diverse range of projects, including liquified natural gas (LNG), petro-chemical, oil and gas refining, and many other industries. Mechanical insulation for LNG and other cryogenic services are sophisticated systems, and we are well-equipped for the challenges that they present. Our team of experienced professionals provides solutions for even the most complex of projects, paving the way for the future of insulation.

Our specialty fabrication division, Pamrod, is the pioneer of pre-engineered vessel heads and spherical tank systems, which provide superior fit-up, excellent thermal performance, and significant labor savings to any project. By always delivering on our word and providing our signature customer service, SPI remains a leader in global insulation solutions.
